

SIMPLY STUNNING FULL HD 1080P

Experience the depth of detail and clarity available on 1080p high definition television with the new Baumann Meyer Full HD 101cm (40") and 116cm (46") Home Theatre LCD television range.

At the heart of the range is the new Baumann Meyer QIA3HD proprietary engine coupled to the latest high resolution 1920 x 1080 LCD panel to produce comprehensive picture detail, natural colour, smooth fluid movement and outstanding picture depth.

Immerse yourself in the viewing experience knowing that the Baumann Meyer easy operation menuing system allows you to

move effortlessly between integrated High Definition Digital Tuner and your favourite external media source with the press of a single button.

Integrate Full HD vision seamlessly into your home entertainment system with easy connectivity of eight separate inputs including HDMI, Component and RGB.

Available in Piano Black with contrasting silver speakers or all White satin finish, the new Baumann Meyer Full HD 1080p Home Theatre television range is both simple and stunning.

Available from selected Bose Stores and Audio Visual specialists
