DT3220D 32 inch (81cm)  
Integrated HD Digital  
LCD Television**

## DT2620D 26 inch and DT3220D 32 inch LCD TV

MODEL	DT2620D 26" 66cm, DT3220D 32" 81cm
COLOURS	16.7 Million
SCREEN RATIO	16 x 9
TUNER SYSTEM	Dual Tuner, HD Digital, Multi-zone Analogue
PICTURE FORMATS	16 x 9, 4 x 3, Zoom, Panorama
SET DIMENSIONS	DT2620D (686 x 510 x 200), DT3220D (805 x 585 x 200)
WITHOUT STAND	DT2620D (686 x 494 x 88), DT3220D (805 x 570 x 98)
WEIGHT	14KG, 22KG
POWER SOURCE	Internal AC Power. AC 100V - 240V, 50Hz
POWER CONSUMPTION	130W, 180W
RESOLUTION	1366 x 768
RESPONSE TIME	8ms
CONTRAST RATIO	1000:1
BRIGHTNESS	500cd
HIGH DEFINITION FORMATS	576p, 720p, 1080i
VIEWING ANGLES	H170, V170
AUDIO	Stereo, SRS WOW Surround
AUDIO OUTPUT	2 way 4 Speakers, 15/20 Watts RMS Total
INPUTS	AV / S-Video, 2 Scart, DVI, 2 Component, PC, RF
SPECIAL FEATURES	Picture in Picture Mode, PC compatible, Sleep Timer, Detachable table top stand

# FULLY INTEGRATED DIGITAL HIGH DEFINITION LCD TELEVISION

**BAUMANN MEYER®**

**DT2620D 26 inch (66cm) &  
DT3220D 32 inch (81cm)  
Integrated HD Digital LCD TV**

**Integrated High Definition Digital Tuner**  
Ease of use and stunning High Definition picture quality come standard with Baumann Meyer's fully Integrated High Definition television Tuner and simple one remote control operation. No external digital box required.

**QIA Engine**  
The latest Baumann Meyer QIA™ (Quantum Interpolation Algorithm) Processor virtually eliminates noise by Identifying all moving edges within a scene and adjusting the blending angle of the image so that interpolation always follows the image edge rather than crossing over it. As a result jagged edge artefacts and staircasing are virtually eliminated resulting in a smooth natural looking image. The result is greater detail and image depth, setting Baumann Meyer at the forefront of LCD Television technology.

**8ms Response Time**  
If sporting events or fast moving action films are your style then response time is a very important part of your viewing enjoyment. With a fast response time of 8ms Baumann Meyer LCD Televisions give smooth, fluid, natural movement without the jagged motion of lesser products.

**Natural Colour**  
Natural and realistic skin tones and colour balance have been a hallmark of Baumann Meyer since our very first LCD Television. Natural Colour – is a special function that allows fine-tuning of individual sub colours through the adjustment of the Red, Blue and Green colour temperature attenuation to achieve the most accurate natural picture balance.

**Future Connect**  
DVD player, video, games consol, personal computer and digital camera are just a few of the current technologies to connect to a television. In the future there will even be more technology to connect, so Baumann Meyer have designed our Digital televisions with 8 separate interface connections, for the connection of present and future technologies.

**2 way HiFi Speakers**  
Within the slimline body design of Baumann Meyer televisions are two independent stereo speaker enclosures, each housing tweeter and woofer and coupled to a graphic equaliser processor to give clear, detailed HiFi sound.

**SRS WOW**  
The SRS mode creates a multi-speaker surround effect from the integrated stereo speakers. Through boosting particular frequency levels the television audio appears to be coming from beyond the television, creating a wide sound stage effect.

**Sleep Timer**  
Set the television to this mode and fall into slumber while viewing your favourite late night program. The television can be set to turn off between 5 and 180 minutes so you can rest assured that you wont be woken in the early hours by an unwanted program.

**3 YEARS Warranty**  
At Baumann Meyer we put quality and service as our top priority. Should a problem occur Baumann Meyer Digital LCD televisions all come with a 3 Year Warranty.

**LIGHT WEIGHT AND EASILY  
WALL MOUNTED.  
WALL BRACKETS AVAILABLE.**

## HIGH DEFINITION TELEVISION HAS NEVER BEEN SO SIMPLE TO USE

**Baumann Meyer** enhance your viewing experience with the “all in one” Integrated High Definition Digital LCD Television. Designed for ease of use, **Baumann Meyer** Digital televisions plug directly into a standard aerial socket and bring full 1080i High-Definition broadcasts through an internal Digital Television Tuner and the convenience of single remote control operation.

Each of the new **Baumann Meyer** Integrated High-Definition LCD television models, the DT2620D 26” (66cm) and DT3220D 32” (81cm) incorporate the latest QIA (Quantum Interpolation Algorithm) processors for superior picture quality.

Finished in stunning Piano black and silver, these new-generation models boast traditional **Baumann Meyer** European styling, blend seamlessly with either a traditional or contemporary environment.

Perfect image quality is ultimately dependent on the video processor employed, which is where **Baumann Meyer's** technical experience of 12

years in the development of drive systems for LCD technology truly shine.

To complement the stunning High Definition picture quality, **Baumann Meyer** set the benchmark for audio clarity and power. In addition to receiving both High-Definition Digital and Standard Analogue broadcasts through a dual tuner setup, the DT2620D and DT3220D models integrate perfectly with existing entertainment systems through no less than eight separate input interfaces.

The 16:9 Wide screen (1366x768 pixel) panel reproduces today's High Definition TV including 720p and 1080i with life like detail and clarity that sets **Baumann Meyer** at the forefront of LCD Television technology. Added functions include Digital Action Freeze Frame, Picture-in-Picture and Sleep Timer. Both models offer the convenience of a removable central tabletop stand and are easily wall mounted using a standard VESA mount.

**BAUMANN MEYER®**
